Comments: This bull is Pharo sired by PCC Geronimo, a calving ease bull we use. He is out of a Pharo influenced cow that also has Mushrush genetics on the maternal side that is moderate framed and easy fleshing. He has been fully vaccinated (ViraShield 6 VL 5, 20/20 Vision 7) and wormed (Dectomax). He had a breeding soundness exam on 4/8/24 and Trich tested negative. He will be a good all-around Red Angus bull with potential for good maternal traits in future replacement females.

Comments: Flying F Cattle is proud to offer this Sundance 0071 son. This bull puts so much good together, combining mass and power in a sound functional package. He is so good at the ground square feet and incredible build. Did we forget to mention he's got the numbers to go along with it? He is heifer safe but will generate calves with maternal ability and extremely good carcass traits. The Salers influence in this bull makes him ready to withstand whatever terrain and get cows bred in any condition. Don't miss your opportunity on this awesome herd sire.
